5. Part E

5.1. Fund Details

5.1.1. Fund

This policy offers only one fund option, Pension Smart Fund 1 on commencement of the Policy. For policies where the premiums are discontinued during the lock-in period, the Fund Value will be moved to Pension Discontinued Policy Fund.

The asset allocation, investment policy and Segregated Fund Identification Number are given below:

Fund Name	Investment Objectives	Asset Category	Asset Allocation Range (%)	Target (%)
Pension Smart Fund 1(SFIN: ULIF06810/09/12PSMARTFU01 121)	To dynamically manage the allocation between equity and debt instruments so as to provide benefits at least equal to the guaranteed benefit. Risk appetite of the fund is defined as 'low'.	Money Market Instruments	0 – 30	15
		Govt. Securities	50 – 100	70
		Equity	0 – 20	15

Within a fund, if the target investment in one asset class is less than 100%, the remaining balance would be invested in the other asset classes mentioned under a fund.

Whilst every attempt would be made to attain target levels prescribed above, it may not be possible to maintain the prescribed 'target' at all times owing to market volatility, availability of market volumes and other related factors. The 'target' may be attained on a 'best effort' basis. However, the asset allocation will always fall within the asset allocation range mentioned in respect of each fund.

5.1.2. Pension Discontinued Policy Fund

Fund Name	Investment Objectives	Asset Class	Asset Allocation Range (%)	Target (%)
Pension Discontinued Policy Fund (SFIN: ULIF07519/08/13P DISPOLF01121)	The objective of the fund is to maintain capital value of the fund at all times and earn a minimum predetermined yield, at the rate determined by the regulator from time to time and maintain sufficient liquidity to meet the pay outs. The fund would be predominantly stay invested money market instruments. Risk appetite of the fund is defined as 'low'	Money market instruments	0 - 40	30
		Government Securities	60-100	70

5.1.3. Creation of Units

Policy Document – Reliance Nippon Life Smart Pension Plan A Unit-Linked, Non-Participating, Individual Pension Plan

Where regular premiums and Top-up premiums are received and accepted at the Company's Office on a Business day, the number of Units to be created shall be computed using the NAV (Unit Price) as determined on the Valuation Date.

5.1.4. Computation of NAV/Unit Price

The NAV/Unit Price will be computed as per IRDAI (Unit Linked Insurance Products) Regulations, 2019.

The NAV/Unit Price of the segregated fund will be computed as: (Market Value of investment held by the fund plus the value of current assets less the value of current liabilities and provisions, if any) divided by number of units existing at the valuation date (before creation/redemption of units).

In case the valuation day falls on a holiday/non-business day, then the exercise will be done on the following working day.

For a very large transaction above a threshold level, in order to maintain equity and fairness with all unit holders, we may choose to apply special treatment for all transactions, which involve purchase or sale of underlying assets. The number of units allocated may reflect the expenditure incurred in the actual market transactions which occurred. The value of units obtained from encashment may be the actual value obtained as a consequence of the actual market transactions which occurred. Transactions may occur over a number days. The threshold level will vary from time to time, depending on, amongst other matters, the liquidity of the stock markets. Our current threshold for large transactions will be Rs.50,000,000 for a fund predominantly investing in Government securities and Rs.25,000,000 for a fund investing in highly liquid equities.

5.1.5. Force Majeure:

- a. The Company shall value the Funds (SFIN) on each day for which the financial markets are open. However, the Company may value the Funds (SFIN) less frequently in extreme circumstances external to the Company i.e. in force majeure events, where the value of the assets is too uncertain. In such circumstances, the Company may defer the valuation of assets for up to 30 days until the Company is certain that the valuation of SFIN can be resumed.
- b. The Company shall inform IRDAI of such deferment in the valuation of assets. During the continuance of the force majeure events, all request for servicing the Policy including Policy related payment shall be kept in abeyance.
- c. The Company shall continue to invest as per the Fund mandates submitted in Section 8.1 of Form IRDAI-Life-Linked-NP, of File & Use procedure. However, the Company shall reserve its right to change the exposure of all or any part of the Fund to Money Market Instruments [as defined under Regulations 2(j) of IRDAI (Investment) Regulations, 2016] in circumstances mentioned under points (a and b) above. The exposure of the Fund as per the Fund mandates submitted in Section 8.1 of Form IRDAI-Life-Linked-NP, of File & Use procedure shall be reinstated within reasonable timelines once the force majeure situation ends.
- d. Few examples of circumstances as mentioned [in point a & b above] are:
 - i. when one or more stock exchanges which provide a basis for valuation of the assets of the Fund are closed otherwise than for ordinary holidays.
 - ii. when, as a result of political, economic, monetary or any circumstances which are not in the control of the Company, the disposal of the assets of the fund would be detrimental to the interests of the continuing Policyholders.
 - iii. in the event of natural calamities, strikes, war, civil unrest, riots and bandhs.
 - iv. in the event of any force majeure or disaster that affects the normal functioning of the Company.
 - v. In such an event, an intimation of such force majeure event shall be uploaded on the Company's website for information.
