#### • Premium Discontinuance

If you discontinue payment of premiums, your Policy will either lapse or become Paid-up as mentioned below:

##### » Lapse

If the first Annualised Premium is not paid in full then the Policy lapses at the end of the grace period and the insurance cover will cease immediately. In such a scenario, no benefits will be paid if the Policy is not revived within the revival period.

If at least the first Annualised Premium is paid in full and the first 2 years (for policies with premium paying term of less than 10 years), or first 3 years (for policies with premium paying term of 10 years and above), Annualised Premiums are not paid in full before the end of the grace period then the insurance cover will cease at the end of the grace period. In this case, the Policy will acquire a Surrender Value which will be payable only after the completion of 3 Policy Years or at the end of the revival period, whichever is later. Refer to the surrender section for details on Surrender Value. In such a scenario, no other benefits will be paid if the policy is not revived within the revival period.

A lapsed policy can be revived within the revival period (i.e., a period of 2 years from the due date of the first unpaid premium but before the maturity date). The revival is subject to the Company's underwriting policy.

If a lapsed policy is not revived at the end of period of revival, the Policy will be terminated.

##### » Paid-up

If the policy has acquired Special Surrender Value (SSV) and no future premiums are paid, your Policy acquires a Paid-up status and your Sum Assured will be reduced to Paid-up Sum Assured.

The Sum Assured will be reduced to Paid-up Sum Assured in the following manner:

Paid-up Sum Assured = Sum Assured x (Number of premiums paid/total number of premiums payable)

Kindly refer to the rider terms and conditions for treatment of riders.

The Benefits under the Base Plan will be reduced as given below:

| Benefits                                    | Payout  |
|---|---|
| Death Benefits during the Policy Term       | Maximum of: Guaranteed Sum Assured on maturity or 10 times of Annualised Premium x (number of premiums paid/total number of premiums payable) |
| Maturity Benefits at the end of Policy Term | Guaranteed Sum Assured on maturity x (number of premiums paid/total number of premiums payable)   |

- I. The Policy will be terminated once the Paid-up value is paid (i.e., on death or at maturity).
- ii. A Paid-up policy can be revived during the revival period (i.e., a period of 2 years from the due date of the first unpaid premium but before the maturity date). The revival is subject to the Company's underwriting policy.

» **Revival**

A policy in a Paid-up or lapsed condition can be revived within a period of 2 years from the due date of the first unpaid premium but before the maturity date by paying the arrears of premiums along with interest at the rate of 9% p.a. The revival of the Policy is subject to satisfactory medical and financial underwriting. The revival is subject to Company's Board approved underwriting policy, i.e., the Life Assured may have to undergo medical test, etc. The Company reserves the right to revise the applicable interest rate from time to time depending on the economic environment, experience and other factors.

» **Surrender**

We provide you the option to surrender your Policy and receive the Surrender Value. The Surrender Value payable is higher of the Guaranteed Surrender Value (GSV) or Special Surrender Value (SSV) of the policy.

The policy will acquire a Surrender Value provided the first Annualised Premium is paid in full. If the first Annualised Premium is paid in full and the policy is surrendered before the completion of 3 Policy Years, the applicable Surrender Value will be payable only after the completion of 3 Policy Years.

In such a scenario, in case of death of the Life Assured before the completion of 3 Policy Years, the applicable Surrender Value will be paid.

i. **Guaranteed Surrender Value (GSV)**

Guaranteed Surrender Value is equal to GSV factor multiplied by the total amount of base premiums paid, excluding extra premium paid, if any. The details of the GSV factors are given in the policy document.

ii. **Special Surrender Value (SSV)**

The Special Surrender Value (SSV) is an amount equal to the Surrender Value factor multiplied by the Paid-up Sum Assured.

The Company reserves the right to change the method of calculation of SSV and the basis from time to time depending on the economic environment, experience and other factors, subject to IRDAI approval. The details of the current Special Surrender Value (SSV) factors are given in the policy document.

The Special Surrender Value (SSV) will be applicable in the following manner:

- a. For PPT of less than 10 years: If all Annualised Premiums have been paid for at least first 2 consecutive years.
- b. For PPT of 10 years or more: If all Annualised Premiums have been paid for at least first 3 consecutive years.

Note: If the policy is surrendered, it cannot be reinstated. The policy will be terminated once it is surrendered.
