**How will your funds be invested**

The policy offers Pension Smart Fund 1 on commencement of the policy.

For policies where the premiums are discontinued during the lock-in period, the Fund Value will be moved to Pension Discontinued Policy Fund.

The asset allocation and investment policy is given below:

Fund Name	Investment Objectives	Asset Category	Asset Allocation Range (%)	Target (%)
Pension Smart Fund 1 (SFIN: ULIF06810/09/12PSMAR TFU01121)	To dynamically manage the allocation between equity and debt instruments so as to provide benefits at least equal to the guaranteed benefit. Risk appetite of the fund is defined as 'low'.	Money Market Instruments	0 - 30	15
		Govt. Securities	50 - 100	70
		Equity	0 - 20	15

Within a fund, if the target investment in one asset class is less than 100%, the remaining balance would be invested in the other asset classes mentioned under a fund.

Whilst every attempt would be made to attain target levels prescribed above, it may not be possible to maintain the prescribed 'target' at all times owing to market volatility, availability of market volumes and other related factors. The 'target' may be attained on a 'best effort' basis. However, the asset allocation will always fall within the asset allocation range mentioned in respect of each fund.

**Pension Discontinued Policy Fund**

For policies where the premiums are discontinued during the lock-in period, the Fund Value will be moved to Pension Discontinued Policy Fund. The minimum investment return applicable on the Pension Discontinued Policy Fund will be equal to the interest rate declared by the IRDAI from time to time. Currently the minimum guaranteed investment return under the Pension Discontinued Policy Fund is 4% p.a. compounding annually.

Fund Name	Investment Objectives	Asset Class	Asset Allocation Range (%)	Target (%)
Pension Discontinued Policy Fund (SFIN: ULIF07519/08/13 PDISPOLFO1121)	The objective of the fund is to maintain capital value of the fund at all times and earn a minimum predetermined yield, at the rate determined by the regulator from time to time and maintain sufficient liquidity to meet the pay outs. The fund would predominantly stay invested in money market instruments. Risk appetite of the fund is defined as 'low'.	Money market instruments	0 - 40	30
		Government Securities	60 - 100	70

**Top-ups**

If you have received a bonus or some lump sum money you can use that as a Top-up premium to increase your investments at any time in your Policy. Top-up premiums can be accepted only where the due base regular or limited premiums are paid up to date.

The minimum Top-up premium at any time is ₹5,000. There is a guarantee of minimum payment of 101% of total Top-up premium paid at the time of maturity/vesting and 105% of total Top-up premium paid at the time of death.

Unlimited Top-Up premiums are allowed, subject to the Board Approved Underwriting Policy.

The Fund Management charges will be priced in the unit price of each Fund on a daily basis.

**Policy Fund Value**

**Charges**

**Mortality Charges**

- c) The occupation of the Life Assured
- d) The health of the Life Assured
- e) The Fund Value

Mortality charges will be deducted on a monthly basis at the beginning of each policy month using 1/12th of the mortality rates. Treatment of sub-standard lives will be as per Board Approved Underwriting Policy of the Company.

**Premium Allocation Charges**

Premium Allocation Charge is deducted as a percentage of the premium (Regular/Limited Premium or Single Premium or Top-up as the case may be) before allocation of the units each time a premium is received.

The Premium Allocation Charges in respect of Regular Premium and Limited Premium payment policies are stated below:

Policy Year	Allocation charge as % of the Annualised Premium
1 year	8.00%

## Fund Value Details

### • Computation of NAV

The NAV will be computed as per IRDAI (Unit Linked Insurance Products) Regulations, 2019.

The NAV of the segregated fund will be computed as: (Market Value of investment held by the fund plus the value of current assets less the value of current liabilities and provisions, if any) divided by number of units existing at the valuation date (before creation/redemption of units).

In case the valuation day falls on a holiday/non business day, then the exercise will be done on the following working day.

We reserve the right to value less frequently than daily in extreme circumstances, where the value of the assets may be too uncertain. In such circumstances we may defer the valuation of assets and the extent of deferment period will be as per the Authority's directions at that point of time until normality returns. Examples of such circumstances are:

- When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the fund are closed otherwise than for ordinary holidays.
- When, as a result of political, economic, monetary or any circumstances out of our control, the disposal of the assets of the unit fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining unit holders.
- During periods of extreme volatility of markets during which surrenders and switches would, in our opinion, be detrimental to the interests of the existing unit holders of the fund.
- In the case of natural calamities, strikes, war, civil unrest, riots and bandhs.
- In the event of any force majeure or disaster that affects our normal functioning.
- If so directed by the IRDAI.
